Downloading PC-ACE Pro32

In this document:

- Downloading PC-ACE Pro32 from the EDISS website

1. Open your internet browser (i.e., Internet Explorer).
2. Go to www.edissweb.com.
3. Select the Software and Vendors page.
4. Select the appropriate state.
5. Under Claim Software section, select the PC-ACE Pro32 – EDISS link.
6. Under the Installation & Update Files section, select the appropriate option:
   - x Select the Install PC-ACE Pro 32 link to download the complete PC-ACE Pro32 software package.
   - x Select the Upgrade PC-ACE Pro32 link to upgrade an older version of PC-ACE Pro32.

   Note: Do not save the update file (pcaceup.exe) in the current WINPCACE folder on the drive you have PC-ACE Pro32 installed.
7. When prompted, select Run or Save.
   - x Selecting Run begins the installation process. Continue to the next step of this documentation.
   - x Selecting Save prompts for a disk location. Save to the desktop. Stop and refer to the documentation entitled Installing PC-ACE Pro32.
8. When prompted, enter the installation password into the Password field and click OK.
