

Welcome Idaho Part B Electronic Data Interchange Submitters!

NORIDIAN REGISTRATION AND TESTING IS AVAILABLE NOW!

The Noridian (NAS) Electronic Data Interchange (EDI) needs are supported by our Electronic Data Interchange Support Services (EDISS) team. EDISS receives health care claims electronically from providers, billing services, and clearinghouses. EDISS provides the ability to quickly and efficiently exchange healthcare information in a safe, secure, and cost effective way.

Before submitting production claims to Noridian, you will need to register using the Total OnBoarding (TOB) product at <http://www.edissweb.com/cgp/registration/totalonboarding.html>. TOB is a user-friendly, online registration and testing tool. Providers use it to register with EDISS for electronic transactions, add and modify the registration whenever needed, and to test electronic claim submission.

YOUR 8 CHARACTER AUTHORIZATION CODE FOR TOB IS:

Please use the above code to log into TOB and take control of your profile. Verify and update information as needed to start the registration/testing process.

Please complete these steps to ensure you are ready for the upcoming transition to Noridian.

1. Navigate to Total Onboarding
2. Utilize the above-noted authorization code to take control of your profile.
3. Verify that your profile's demographic and NPI information is up-to-date.*
4. Enter your email address within your profile**
5. Verify your EDI transactions are setup correctly. *
6. Upload your test file to begin onboarding with Noridian!

*EDISS and CGS, your outgoing contractor, have been working together to make the EDI registration and testing process seamless. EDISS has auto loaded your facility information and electronic transactions into TOB. If anything needs to be adjusted, please do so immediately.

**TOB delivers all testing and registration status information through a series of email messages. It is critical that all users provide a valid email address to ensure successful transition and ongoing support.

For additional help with Total Onboarding, the Idaho B TOB user manual is located at <http://www.edissweb.com/cgp/news/jftransition.html>.

***Please remember to check the NAS EDISS website for updates. <http://www.edissweb.com>
