EDISS Trading Partner Agreement Companion Document

For Iowa Professional Medicaid Providers

835 4010A1 Professional Claim

Last Updated 4/01/2010

The Health Insurance Portability and Accountability Act (HIPAA) requires that Medicaid, and all other health insurance payers in the United States, comply with the Electronic Data Interchange (EDI) standards for health care as established by the Secretary of Health and Human Services. The ANSI X12N 835 4010A1 Implementation Guides have been established as the standards of compliance for claim transactions. The implementation guides for each transaction are available electronically at www.wpc-edi.com.

The following information is intended to serve only as a companion document to the HIPAA ANSI X12N 835 4010A1 implementation guides. The use of this document is solely for the purpose of clarification.

The information describes specific requirements to be used for processing data in the Medicaid Management Information Systems (MMIS). **The information in this document is subject to change.** Changes will be communicated on the EDISS web site: www.edissweb.com and via the EDISS Email Listing. This companion document supplements, but does not contradict any requirements in the X12N 835 Professional 4010 Addenda implementation guide. Additional companion documents/trading partner agreements will be developed for use with other HIPAA standards, and will be posted as they become available.

IG Page #	Medicaid Specifications
