

Centers for Medicare & Medicaid Services (CMS)

Standard Companion Guide
Health Care Claim: Payment/Advice (835)

Based on ASC X12N TR3, Version 005010X221A1

Companion Guide Version Number: 7.0,
February 2023

Disclosure Statement

The Centers for Medicare & Medicaid Services (CMS) is committed to maintaining the integrity and security of health care data in accordance with applicable laws and regulations. Disclosure of Medicare claims is restricted under the provisions of the Privacy Act of 1974 and Health Insurance Portability and Accountability Act of 1996. This Companion Guide is to be used for conducting Medicare business only.

Preface

This Companion Guide (CG) to the ASC X12N Technical Report Type 3 (TR3) Version 005010 and associated errata adopted under Health Insurance Portability and Accountability Act of 1996 (HIPAA) clarifies and specifies the data content when exchanging transactions electronically with Medicare. Transmissions based on this CG, used in tandem with the TR3, are compliant with both ASC X12N syntax and those guides. This CG is intended to convey information that is within the framework of the TR3 adopted for use under HIPAA. This CG is not intended to convey information that in any way exceeds the requirements or usages of data expressed in the TR3.

This CG contains instructions for electronic communications with the publishing entity, as well as supplemental information for creating transactions while ensuring compliance with the associated ASC X12N TR3s and the Council for Affordable Quality Healthcare – Committee on Operating Rules for Information Exchange (CAQH CORE) companion guide operating rules.

In addition, this CG contains the information needed by Trading Partners to send and receive electronic data with the publishing entity, who is acting on behalf of CMS, including detailed instructions for submission of specific electronic transactions. The instructional content is limited by ASC X12N's copyrights and Fair Use statement.

1 Introduction

This document is intended to provide information from the author of this guide to Trading Partners to give them the information they need to exchange Electronic Data Interchange (EDI) data with the author. This includes information about registration, testing, support, and specific information about control record setup.

An EDI Trading Partner is defined as any Medicare customer (e.g., provider/supplier, billing service, clearinghouse, or software vendor) that transmits to, or receives electronic data from Medicare. Medicare's EDI transaction system supports transactions adopted under the Health Insurance Portability and Accountability Act of 1996 (HIPAA) as well as additional supporting transactions as described in this guide.

Medicare Fee-For-Service (FFS) is publishing this Companion Guide (CG) to clarify, supplement, and further define specific data content requirements to be used in conjunction with, and not in place of, the ASC X12N Technical Report Type 3 (TR3) Version 005010 and associated errata mandated by HIPAA and/or adopted by Medicare FFS for EDI.

This CG provides communication, connectivity, and transaction-specific information to Medicare FFS Trading Partners and serves as the authoritative source for Medicare FFS-specific EDI protocols.

Additional information on Medicare FFS EDI practices are referenced within Internet-only Manual (IOM) Pub. 100-04 Medicare Claims Processing Manual:

- Chapter 22 – [Remittance Advice](https://www.cms.gov/Regulations-and-Guidance/Guidance/Manuals/downloads/clm104c22.pdf) (https://www.cms.gov/Regulations-and-Guidance/Guidance/Manuals/downloads/clm104c22.pdf)
- Chapter 24 – [General EDI and EDI Support, Requirements, Electronic Claims, and Mandatory Electronic Filing of Medicare Claims](https://www.cms.gov/Regulations-and-Guidance/Guidance/Manuals/downloads/clm104c24.pdf) (https://www.cms.gov/Regulations-and-Guidance/Guidance/Manuals/downloads/clm104c24.pdf)

1.1 Scope

EDI addresses how Trading Partners exchange professional and institutional claims, claim acknowledgments, claim remittance advice, claim status inquiry and responses, and eligibility inquiry and responses electronically with Medicare. This CG also applies to ASC X12N 835 transactions that are being exchanged with Medicare by third parties, such as clearinghouses, billing services or network service vendors.

This CG provides technical and connectivity specification for the 835 Health Care Claim: Payment/Advice transaction Version 005010A1.

1.2 Overview

This CG includes information needed to commence and maintain communication exchange with Medicare. In addition, this CG has been written to assist you in designing and implementing the ASC X12N 835 transaction standard to meet Medicare's processing standards. This information is organized in the sections listed below:

- *Getting Started:* This section includes information related to hours of operation, and data services. Information concerning Trading Partner registration and the Trading Partner testing process is also included in this section.
- *Testing and Certification Requirements:* This section includes detailed transaction testing information as well as certification requirements needed to complete transaction testing with Medicare.
- *Connectivity/Communications:* This section includes information on Medicare’s transmission procedures as well as communication and security protocols.
- *Contact Information:* This section includes EDI customer service, EDI technical assistance, Trading Partner services and applicable websites.
- *Control Segments/Envelopes:* This section contains information needed to create the Interchange Control Header/Trailer (ISA/IEA), Functional Group Header/Trailer (GS/GE), and Transaction Set Header/Trailer (ST/SE) control segments for transactions to be submitted to or received from Medicare.
- *Specific Business Rules and Limitations:* This section contains Medicare business rules and limitations specific to the ASC X12N 835.
- *Acknowledgments and Reports:* This section contains information on all transaction acknowledgments sent by Medicare and report inventory.
- *Trading Partner Agreement:* This section contains information related to implementation checklists, transmission examples, Trading Partner Agreements and other resources.
- *Transaction Specific Information:* This section describes the specific CMS requirements over and above the information in the ASC X12N 835 TR3.

1.3 References

The following locations provide information for where to obtain documentation for Medicare-adopted EDI transactions and code sets.

2 Getting Started

2.1 Working Together

Noridian Healthcare Solutions (NHC) is dedicated to providing communication channels to ensure communication remains constant and efficient. NHS has several options to assist the community with their electronic data exchange needs. By using any of these methods NHS is focused on supplying the Trading Partner community with a variety of support tools.

An EDI help desk is established for the first point of contact for basic information and troubleshooting. The help desk is available to support most EDI questions/incidents while at the same time being structured to triage each incident if more advanced research is needed. Email is also accessible as a method of communicating with NHS EDI. The email account is monitored by knowledgeable staff ready to assist you. When communicating via email, please exclude any protected health information (PHI) to ensure security is maintained. In addition to the NHS's EDI help desk and email access, see Section 5 for additional contact information.

NHS also has several external communication components in place to reach out to the Trading Partner community. NHS posts all critical updates, system issues and EDI-specific billing material to their [website](http://www.edissweb.com/cgp) (<http://www.edissweb.com/cgp>). All Trading Partners are encouraged to visit this page to ensure familiarity with the content of the site. NHS also distributes EDI pertinent information in the form of an EDI newsletter or comparable publication, which is posted to the website every month. In addition to the website, a distribution list has been established in order to broadcast urgent messages. Please register for [NHS's EDI Distribution list](#) (<http://www.edissweb.com/cgp>).

2.2 Trading Partner Registration

An EDI Trading Partner is any entity (provider, billing service, clearinghouse, software vendor, employer group, financial institution, etc.) that transmits electronic data to, or receives electronic data from, another entity.

Medicare FFS and NHS support many different types of Trading Partners or customers for EDI. To ensure proper registration, it is important to understand the terminology associated with each customer type:

- **Submitter** – the entity that owns the submitter ID associated with the health care data being submitted. It is most likely the provider, hospital, clinic, supplier, etc., but could also be a third party submitting on behalf of one of these entities. However, a submitter must be directly linked to each billing National

Provider Identifier (NPI). Often the terms submitter and Trading Partner are used interchangeably because a Trading Partner is defined as the entity engaged in the exchange or transmission of electronic transactions. Thus, the entity that is submitting electronic administrative transactions to NHS is a Medicare FFS Trading Partner.

- *Vendor* – an entity that provides hardware, software, and/or ongoing technical support for covered entities. In EDI, a vendor can be classified as a software vendor, billing or network service vendor, or clearinghouse.
- *Software Vendor* – an entity that creates software used by Trading Partners to conduct the exchange of electronic transactions with Medicare FFS.
- *Billing Service* – a third party that prepares and/or submits claims for a provider.
- *Clearinghouse* – a third party that submits and/or exchanges electronic transactions (claims, claim status or eligibility inquiries, remittance advice, etc.) on behalf of a provider.
- *Network Service Vendor* – a third party that provides connectivity between a Trading Partner and NHS.

Medicare requires all trading partners to complete EDI registration and the EDI Enrollment form. The EDI enrollment form designates the Medicare contractor and/or CEDI as the entity they agree to engage in for EDI and ensures agreement between parties to implement standard policies and practices to ensure the security and integrity of information exchanged. The forms can be accessed by creating an account with the [Noridian EDISS Connect registration portal](https://connect.edissweb.com/) (<https://connect.edissweb.com/>).

A Trading Partner's EDISS Connect profile will hold all contact and billing information as well as list vendor associations. All required forms can be printed directly from the website. EDISS Connect can also be accessed from the registration page on the [Noridian EDISS website](http://www.edissweb.com/cgp/) (<http://www.edissweb.com/cgp/>).

Under HIPAA, EDI applies to all covered entities transmitting the following HIPAA-established administrative transactions: 837I and 837P, 835, 270/271, 276/277, and the National Council for Prescription Drug Programs (NCPDP) D.O. Additionally, Medicare Administrative Contractors (MACs) and Common Electronic Data Interchange (CEDI) will use the Interchange Acknowledgment (TA1), Implementation Acknowledgment (999), and 277 Claim Acknowledgement (277CA) error-handling transactions.

Medicare requires that NHS furnish information on EDI to new Trading Partners that request Medicare claim privileges. Additionally, Medicare requires NHS to assess the capability of entities to submit data electronically, establish their qualifications (see test requirements in Section 3), and enroll and assign submitter EDI identification numbers to those approved to use EDI.

A provider must obtain an NPI and furnish that NPI to NHS prior to completion of an initial EDI Enrollment Agreement and issuance of an initial EDI number and password by that contractor. NHS is required to verify that NPI is on the Provider Enrollment Chain and Ownership System (PECOS). If the NPI is not verified on the PECOS, the EDI Enrollment Agreement is denied, and the provider is encouraged to contact the appropriate MAC provider enrollment department (for Medicare Part A and Part B provider) or the National Supplier Clearinghouse (for Durable Medical Equipment suppliers) to resolve the issue. Once the NPI is properly verified, the provider can reapply the EDI Enrollment Agreement.

A Trading Partner's EDI number and password serve as an electronic signature and the Trading Partner would be liable for any improper usage or illegal action performed with it. A Trading Partner's EDI access number and password are not part of the capital property of the Trading Partner's operation and may not be given to a new owner of the Trading Partner's operation. A new owner must obtain their own EDI access number and password.

If providers elect to submit/receive transactions electronically using a third party such as a billing agent, a clearinghouse, or network services vendor, then the provider is required to have an agreement signed by that third party. The third party must agree to meet the same Medicare security and privacy requirements that apply to the provider in regard to viewing or using Medicare beneficiary data. These agreements are not to be submitted to Medicare but are to be retained by the provider. Providers will notify NHS which third party agents they will be using on their EDI Enrollment form.

Third parties are required to register with NHS by completing the [third-party agreement form](http://www.edissweb.com/cgp/vendors/) (<http://www.edissweb.com/cgp/vendors/>). This will ensure that their connectivity is completed properly, however they may need to enroll in mailing lists separately in order to receive all publications and email notifications.

Trading Partners must also be informed that they are not permitted to share their personal EDI access number and password with any billing agent, clearinghouse, or network service vendor. Trading Partners must also not share their personal EDI access number with anyone on their own staff who does not need to see the data for completion of a valid electronic claim, to process a remittance advice for a claim, to verify beneficiary eligibility, or to determine the status of a claim. No other non-staff individuals or entities may be permitted to use a Trading Partner's EDI number and password to access Medicare systems. Clearinghouse and other third-party representatives must obtain and use their own unique EDI access number and password from NHS. For a complete reference to security requirements, see Section 4.4.

2.3 Trading Partner Certification and Testing Process

Medicare FFS does not certify Trading Partners. However, NHS does certify vendors, clearinghouses, and billing services by conducting testing with them and maintaining a 5010 [Approved Vendors list](http://www.edissweb.com/cgp/vendors/) (<http://www.edissweb.com/cgp/vendors/>).

3 Testing and Certification Requirements

NOTE: NHS does not require Trading Partner testing for approval of 835 transactions.

835 transaction testing is available upon Trading Partner request. After a Trading Partner registers for electronic transactions using EDISS Connect, they should allow 5 – 7 business days to be approved to receive 835 transactions electronically. Trading Partners can verify approval status by logging into their EDISS Connect account.

4 Connectivity / Communications

4.1 Process Flows

The 5010 ERA is the electronic version of the paper Remittance Advice (RA). It explains to providers which claims paid and denied for each payment cycle. EDISS refers to it as either the ERA or the 835 transaction. 5010 ERAs are delivered to the designated Trading Partner once a payment has been made. It is the responsibility of the facility to verify if an ERA is available to download.

Figure 1. NHS EDISS 835 Process Flow.

4.2 Transmission

Access to NHS is obtained through an approved Network Service Vendor (NSV), or via SOAP/MIME protocols using an X.509 Certificate.

- Approved NSV's can be found on our [website](http://www.edissweb.com/cgp/software/) (http://www.edissweb.com/cgp/software/)
- SOAP/MIME information can be found in section 4.4.
 - See Section 4.4 for a list of approved X.509 Certificate vendors.
 - The X.509 certificate will be uploaded to EDISS Connect when a trading partner registers for HTTPS connectivity.

4.2.1 Re-transmission Procedures

Trading Partners must contact EDI Support Services to request to have an 835 file re-transmitted.

4.3 Communication Protocol Specifications

- Utilization of a third-party Network Service Vendor (NSV)
 - A network service vendor (NSV) can provide secure connectivity to NHS for the 837, 835, and 276-277 transactions. Please contact the NSVs for details about the specific products and services they offer. A list of NSVs that currently connect to NHS can be found [here](http://www.edissweb.com/cgp/software/): (<http://www.edissweb.com/cgp/software/>).
- HTTPS connectivity using SOAP or MIME
 - Trading partners can submit 276-277 transactions; and receive 835's, via HTTPS connectivity. Security is provided by an X.509 certificate. This certificate must be obtained by the submitter. See section 4.4 for more details.
 - Note: This connectivity is conducted as defined by the CORE Operating Rules. 276-277 and 835 transactions are eligible to use HTTPS. See [CORE Rule 270](https://www.caqh.org/sites/default/files/core/phase-ii/Phase II.Connectivity Rule.pdf) (<https://www.caqh.org/sites/default/files/core/phase-ii/Phase II.Connectivity Rule.pdf>) for more information.

4.4 Security Protocols and Passwords

All Trading Partners must adhere to CMS information security policies; including, but not limited to, the transmission of electronic claims, claim status, receipt of the remittance advice, or any system access to obtain beneficiary PHI and/or eligibility information. Violation of this policy will result in revocation of all methods of system access. NHS is responsible for notifying all affected Trading Partners as well as reporting the system revocation to CMS.

NHS EDISS assigns a unique user id and password to each Trading Partner not utilizing HTTPS connectivity. Credential information will be sent to the Trading Partner upon successful registration through EDISS Connect.

Trading partners using HTTPS connectivity must utilize an X.509 certificate to secure the connection. Noridian accepts the following certificates:

Digicert

- DigiCert SHA2 Assured ID CA
- DigiCert SHA2 Secure Server CA
- DigiCert SHA2 Extended Validation Server CA
- DigiCert SHA2 High Assurance Server CA
- DigiCert Assured ID CA G2
- DigiCert Global CA G2

Entrust

- Entrust Certification Authority – L1K
- Entrust Certification Authority – L1M

Symantec

- Symantec Class 3 EV SSL CA – G3
- Symantec Class 3 Secure Server CA – G4
- Symantec Class 3 Extended Validation SHA256 SSL CA

Passwords are set to automatically expire every 60 days, and new passwords must follow a specific set of defined criteria. If a Trading Partner needs their password reset, procedures are in place to verify specific information within the Trading Partner profile to make sure we are providing an authorized individual with the new password.

Trading Partners are only allowed to send the electronic transactions for which they are registered for with EDISS, all other transactions will be rejected.

5 Contact Information

5.1 EDI Customer Service

Noridian EDISS provides support to our Trading Partner community through several different methods. We provide a help desk for incoming support calls, an email address to which questions can be directed, and a full-service website which contains user guides and online tutorials.

Phone:

- Jurisdiction E (JE) Part A and B: 855-609-9960
- Jurisdiction F (JF) Part A and B: 877-908-8431

Fax Number:

701-277-7850

Hours of Operation:

- Monday – Friday 8:00 A.M. – 7:00 P.M. (CT)
- [Closure Schedule](http://www.edissweb.com/cgp/contact/closures.html) (<http://www.edissweb.com/cgp/contact/closures.html>)

Mailing Address:

EDI Support Services

PO Box 6729

Fargo, ND 58108-6729

Email:

support@edissweb.com

5.2 EDI Technical Assistance

NHS EDISS is available to assist our Trading Partner community with questions on error reports, files sent, the Ability | PC-ACE software, among many other things; however, we are not able to assist with technical issues concerning networking.

ABILITY | PC-ACE allows you to:

- Submit electronic claims
- Check claim status
- Review and print electronic remittance advice
- Track claim submission and payment

Additional information regarding Ability | PC-ACE can be found on our [website](http://www.edissweb.com/cgp/software/pace.html) (<http://www.edissweb.com/cgp/software/pace.html>)

5.3 Trading Partner Service Number

See Section 5.2

5.4 Applicable Websites / Email

See Section 5.2

6 Control Segments / Envelopes

Enveloping information must be as follows:

Note: A hyphen in the table below means N/A.

Table 3. ISA Interchange Control Header

Page #	Element	Name	Codes/Content	Notes/Comments
C.4	ISA01	Authorization Information Qualifier	00	Medicare expects the value to be 00.
C.4	ISA02	Authorization Information	-	ISA02 shall contain 10 blank spaces.
C.4	ISA03	Security Information Qualifier	00	Medicare expects the value to be 00.
C.4	ISA04	Security Information	-	Medicare will send spaces.
C.4	ISA05	Interchange ID Qualifier	27, 28, ZZ	Medicare will send 27.
C.4	ISA06	Interchange Sender ID	-	For specific numbers required for inbound transactions, please view the Carrier Code Listing (http://www.edissweb.com/docs/shared/carrier_codes.pdf) on the EDISS website.
C.5	ISA07	Interchange ID Qualifier	29	Medicare will send 29.
C.5	ISA08	Interchange Receiver ID	-	Noridian assigned Submitter ID.
C.5	ISA11	Repetition Separator	-	Noridian repetition submitter character.
C.6	ISA14	Acknowledgement Requested	0	Medicare will send 0.

Note: A hyphen in the table below means N/A.

Table 4. GS Functional Group Header

Page #	Element	Name	Codes/Content	Notes/Comments
C.7	GS02	Application Sender Code	-	For specific numbers required for inbound transactions, please view the Carrier Code Listing (http://www.edissweb.com/docs/shared/carrier_codes.pdf) on the EDISS website.
C.7	GS03	Application Receiver's Code	-	Noridian assigned Submitter ID.

Page #	Element	Name	Codes/Content	Notes/Comments
C.8	GS08	Version Identifier Code	005010X221A1	Medicare will send 05010X221A1

Interchange Control (ISA/IEA), Functional Group (GS/GE), and Transaction Set (ST/SE) envelopes must be used as described in the TR3. Medicare’s expectations for the Control Segments and Envelopes are detailed in Sections 6.1, 6.2, and 6.3.

6.1 ISA-IEA

Delimiters – Inbound Transactions

Not applicable

Delimiters – Outbound Transactions

Trading Partners should contact NHS for a list of delimiters to expect from Medicare. Note that these characters will not be used in data elements within an ISA/IEA Interchange Envelope.

Table 5. Outbound Transaction Delimiters

Delimiter	Character Used	Dec Value	Hex Value
Data Element Separator	*	42	2A
Repetition Separator	^	94	5E
Component Element Separator	:	58	3A
Segment Terminator	~	126	7E

Data Element Detail and Explanation

All data elements within the ISA/IEA interchange envelope must follow ASC X12N syntax rules as defined within the TR3.

6.2 GS-GE

Functional group (GS-GE) codes are transaction specific. Therefore, information concerning the GS/GE Functional Group Envelope can be found in Table 4.

6.3 ST-SE

Medicare FFS follows the HIPAA-adopted TR3 requirements.

7 Specific Business Rules

This section describes the specific CMS requirements over and above the standard information in the TR3.

Note: A hyphen in the table below means N/A.

Table 6. Detail Structures Business Rules and Limitations

Page #	Loop ID	Reference	Name	Codes/Content	Notes/Comments
111	2000	LX	LX - Header Number	-	Required for Medicare. Fiscal Intermediary Standard System (FISS) uses TTYMMM - Facility Code/Year/Month. MCS uses "1" for assigned and "0" for non-assigned.
171	2100	REF	Rendering Provider Identification	-	Segment not used by Medicare.
206	2110	REF	Service Identification – Reference Identification Qualifier	LU, 1S, APC, RB	Medicare does not use "BB", "E9", "G1", or "G3".
207	2110	REF	Rendering Provider Information - Reference Identification Qualifier	HPI, SY, TJ, 1C	Medicare does not use REF01 Codes "0B", "1A", "1B", "1D", "1H", "1J", "D3" or "G2".
209	2110	REF	Health Care Policy Identification	OK	Medicare will report the LCD/NCD code in Loop 2110, Segment REF, REF02.
140	2100	NM1	Insured Name	-	Segment not used by Medicare.

8 Acknowledgments and Reports

The 999 is not used for 835 transactions.

9 Trading Partner Agreement

EDI Trading Partner Agreements ensure the integrity of the electronic transaction process. The Trading Partner Agreement is related to the electronic exchange of information, whether the agreement is an entity or a part of a larger agreement, between each party to the agreement.

Medicare FFS requires all Trading Partners to sign a [Trading Partner Agreement](https://connect.edissweb.com/) (https://connect.edissweb.com/) with NHS.

Additionally, NHS requires trading partners to follow the EDI enrollment process outlined in section 2.2.

10 Transaction-Specific Information

This section defines specific CMS requirements over and above the standard information in the ASC X12N 835 TR3.

10.1 Header

The following table contains specific details for the Header.

Note:

- A hyphen in the table below means N/A.
- A new table exists for each segment.

Table 7. ST Transaction Set Header

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
68	N/A	ST02	Transaction Set Control Number	-	9	From one-by-one counter (begins with "0001").

Table 8. BPR Financial Information

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
71	N/A	BPR03	Credit or Debit Flag Code	C	1	Code "D" does not apply to Medicare.
72	N/A	BPR04	Payment Method Code	ACH, CHK, NON	3	Codes "BOP" and "FWT" do not apply to Medicare.

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
73	N/A	BPR06	Depository Financial Institution (DFI) Identification Number Qualifier	01	2	Code "04" does not apply to Medicare.
75	N/A	BPR12	Depository Financial Institution (DFI) Identification Number Qualifier	01	2	Code "04" does not apply to Medicare.

10.1.1 Loop 1000A Payer Identification

The following table describes the specific details associated with the Payer Identification structure.

Note: A hyphen in the table below means N/A.

Table 9. Loop 1000A REF Additional Payer Identifier

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
92	1000A	REF01	Reference Identification Qualifier	2U	2	Medicare will send 2U
93	1000A	REF02	Reference Identification	-	50	NHS reference ID

10.2 Detail Structures

This section describes the specific details associated with Detail Structures.

10.2.1 Loop 2000 Header Number

The following table describes the specific details associated with the Header Number structure.

Table 10. Loop 2000 LX Header Number

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
111	2000	LX01	Assigned Number	0, 1	6	Medicare will send "1" for Assigned or "0" for Non-Assigned.

10.2.2 Loop 2100 Claim Payment Information

The following tables describe the specific details associated with the Claim Payment Information structure.

Note: A new table exists for each segment.

Table 11. Loop 2100 CLP Claim Payment Information

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
124	2100	CLP02	Claim Status Code	1, 2, 3, 4, 19, 20, 21, 22, 23	2	"25" (Predetermination Pricing Only - No Payment) does not apply to Medicare.
126	2100	CLP06	Claim Filing Indicator Code	MA, MB	2	Medicare will send "MB".

Table 12. Loop 2100 CAS Claim Adjustment

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
131	2100	CAS01	Claim Adjustment Group Code	CO, OA, PR	2	Medicare contractors are limited to use of the "CO", "OA", and "PR" group codes; "PI" is not used.

Table 13. Loop 2100 NM1 Patient Name

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
139	2100	NM108	Patient Name	MI	2	Medicare will send "MI".

Note: A hyphen in the table below means N/A.

Table 14. Loop 2100 NM1 Insured Name

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
140	2100	NM1	Insured Name	-	N/A	Segment not used by Medicare

Table 15. Loop 2100 NM1 Crossover Carrier Name

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
151	2100	NM108	Identification Code Qualifier	PI, XV	2	COB transmissions with more than one secondary payer shall indicate remark code "N89" in a claim level remark code data element. "AD", "FI", "NI", and "PP" do not apply to Medicare.

Table 16. Loop 2100 REF Other Claim Related Identification

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
169	2100	REF01	Reference Identification Qualifier	28, 6P, EA, F8	2	Medicare does not use "1L", "1W", "9A", "9C", "BB", "CE", "G1", "G3", or "IG".

Note: A hyphen in the table below means N/A.

Table 17. Loop 2100 REF Rendering Provider Information

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
171	2100	REF	Rendering Provider Information	-	N/A	Segment not used by Medicare

Table 18. Loop 2100 AMT Amount Qualifier Code

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
182	2100	AMT01	Amount Qualifier Code	AU, DY, F5, I, NL, ZK, ZL, ZM, ZN, ZO	3	Medicare does not use "D8", "T" or "T2".

Table 19. Loop 2100 QTY Claim Supplement Information Quantity

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
184	2100	QTY01	Quantity Qualifier	CA, CD, LA, OU, ZK, ZL, ZM, ZN, ZO	2	Medicare does not use "LE", "NE", "NR", "PS", or "VS".

10.2.3 Loop 2110 Service Payment Information

The following tables describe the specific details associated with the Service Payment Information structure.

Note: A new table exists for each segment.

Table 20. Loop 2110 SVC Service Payment Information

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
187	2110	SVC01-1	Product or Service ID Qualifier	HC, NU, N4, HP	2	Only "HC", "NU", "N4", and "HP" apply to Medicare.
191	2110	SVC06-1	Product or Service ID Qualifier	HC, NU, N4, HP	2	Only "HC", "NU", "N4", and "HP" apply to Medicare.

Table 21. Loop 2110 CAS Service Adjustment

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
198	2110	CAS01	Claim Adjustment Group Code	CO, OA, PR	2	Medicare contractors are limited to use of the "CO", "OA", and "PR" group codes; "PI" is not used.

Table 22. Loop 2110 REF Service Identification

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
206	2110	REF01	Services Identification – Reference Identification Qualifier	LU, 1S, APC, RB	2	Medicare does not use "BB", "E9", "G1" or "G3".

Table 23. Loop 2110 REF Rendering Provider Information

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
207	2110	REF01	Rendering Provider Information – Reference Identification Qualifier	HPI, SY, TJ, 1C	2	Medicare does not use “0B”, “1A”, “1B”, “1D”, “1H”, “1J”, “D3” or “G2”.

Table 24. Loop 2110 REF Healthcare Policy Identification

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
209	2110	REF01	Health Care Policy Identification	OK	2	Medicare will report the LCD/NCD code in Loop 2110, Segment REF, REF02.

Table 25. Loop 2110 AMT Amount Qualifier Code

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
211	2110	AMT01	Amount Qualifier Code	B6, KH, 2K, ZL, ZM, ZN, ZO	3	Medicare does not use “T” or “T2”.

Table 26. Loop 2110 LQ Health Care Remark Codes

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
215	2110	LQ01	Code List Qualifier Code	HE	3	Only “HE” applies to Medicare.

10.3 Summary

The following table describes the specific details associated with the Summary structure.

Table 27. PLB Provider Adjustment

Page #	Loop ID	Reference	Name	Codes/Content	Length	Notes/Comments
217	N/A	PLB03-1	Adjustment Reason Code	50, 51, 72, 90, AP, B2, B3, BD, BN, C5, CS, CV, DM, E3, FB, GO, HM, IP, IS, IR, J1, L3, L6, LE, LS, OA, OB, PI, PL, RA, RE, SL, TL, WO, WU	2	Medicare does not use "AH", "AM", "CR", "CT", "CW", or "FC".

11 Appendices

11.1 Implementation Checklist

Register in EDISS Connect

- Section 2.2 can assist with registering via EDISS Connect.

Sign up for the newsletter

- Section 2.1 contains instructions for subscribing to the EDISS newsletter.

Electronically sign Enrollment Form

- The Enrollment form is signed as part of the EDISS Connect registration process. Section 2.2 and Section 9 contain additional information regarding the Enrollment Form.

Test the transaction (Only required for 837 transactions)

- Section 3 details testing policies and procedures.

Noridian EDISS created a [guide](http://www.edissweb.com/cgp/registration/) (http://www.edissweb.com/cgp/registration/) for providers transitioning to electronic transactions.

11.3 Frequently Asked Questions

Frequently asked questions can be accessed [Medicare FFS EDI Operations](https://www.cms.gov/ElectronicBillingEDITrans/) (https://www.cms.gov/ElectronicBillingEDITrans/) and [NHS Frequently Asked Questions](http://www.edissweb.com/docs/shared/edi_faq.pdf) (http://www.edissweb.com/docs/shared/edi_faq.pdf).

11.4 Acronym Listing

Table 28. Acronym List

Acronym	Definition
276	276 Claim Status Request transaction
277	277 Claim Status Response transaction
277CA	277 Claim Acknowledgement
835	835 Electronic Remittance Advice transaction
837P	837 Professional Claims transaction
999	Implementation Acknowledgment
ASC	Accredited Standards Committee
CAQH CORE	Council for Affordable Quality Healthcare - Committee on Operating Rules for Information Exchange
CEDI	Common Electronic Data Interchange
CG	Companion Guide
CMN	Certificate of Medical Necessity
CMS	Centers for Medicare & Medicaid Services
DME	Durable Medical Equipment
EDI	Electronic Data Interchange
ERA	Electronic Remittance Advice
FFS	Medicare Fee-For-Service
FISMA	Federal Information Security Management Act
FISS	Fiscal Intermediary Standard System
GS/GE	GS – Functional Group Header / GE – Functional Group Trailer
HCPCS	Healthcare Common Procedure Coding System
HIPAA	Health Insurance Portability and Accountability Act of 1996
HTTP	Hyper Text Transfer Protocol
HTTPS	Hyper Text Transfer Protocol Secure
IOM	Internet-only Manual
ISA/IEA	ISA – Interchange Control Header / IEA – Interchange Control Trailer
MAC	Medicare Administrative Contractor
MIME	Multipurpose Internet Mail Extensions

Acronym	Definition
NCPDP	National Council for Prescription Drug Programs
NPI	National Provider Identifier
PECOS	Provider Enrollment Chain and Ownership System
PHI	Protected Health Information
sFTP	Secure File Transfer Protocol
SOAP	Simple Object Access Protocol
ST/SE	ST – Transaction Set Header / SE – Transaction Set Trailer
TA1	Interchange Acknowledgment
TR3	Technical Report Type 3
WSDL	Web Services Description Language
X12	A standards development organization that develops EDI standards and related documents for national and global markets (See the official ASC X12 website.)
X12N	Insurance subcommittee of X12

11.5 Change Summary

The following table contains version information of this CG.

Table 29. Companion Guide Version History

Version	Date	Section(s) Changed	Change Summary
1.0	November 5, 2010	All	Initial Draft
2.0	January 3, 2011	All	1st Publication Version
3.0	April 2011	6.0	2nd Publication Version
4.0	September 2015	All	3rd Publication Version
5.0	March 2019	All	4th Publication Version
6.0	June 2019	2.1, 2.2, 5.1, 5.2, 9, 11.3	5th Publication Version Hyperlinks in the listed sections were updated.
6.1	May 2020	1.3 and 11.4	X12 and WPC references updated.
7.0	February 2023	All	508 Compliance Updates
